

YOU'RE INVITED

Innovative Technologies Seminar

October 27, 2022 | Rockford, IL

Aqua-Aerobic Systems offers this 1.5 day Process and Product Application Seminar featuring **Innovative Technologies** which include Aerobic Granular Sludge Technology, Primary Filtration and Wet Weather Treatment utilizing Pile Cloth Media Filtration. This information can be invaluable to a range of wastewater treatment professionals including: engineers, consultants, plant managers, operators and contractors.

ATTEND THIS "IN-PERSON" SEMINAR TO GAIN A BETTER UNDERSTANDING OF:

- Operation and application of AquaNereda® aerobic granular sludge technology and Aqua-Aerobic® pile cloth media filtration.
- Learn how AquaPrime® and AquaStorm® cloth media filters are designed to handle varying loads including high solids.
- Understand how these innovative solutions can be paired together for a complete solution to meet NPDES requirements.
- Interactive tours and full-scale equipment demonstrations enhance learning of the technologies.

Earn 8.0 Professional Development Hours (PDH)

A tour of the Aqua-Aerobic Research and Technology (R&T) Center and the new AquaNereda® Demonstration Plant (left) will be included in the seminar.

There is **no cost to you** for attending this seminar. Your airfare, hotel accommodations, meals and ground transportation from Chicago's O'Hare airport to Rockford, IL and the return to O'Hare will be furnished by Aqua-Aerobic Systems, Inc. and your local Aqua-Aerobic representative. Upon registering for the seminar, you will receive more detailed travel information and a seminar synopsis.

Availability is limited for this seminar, so early confirmation is recommended.
