

YOU'RE INVITED

Water Reclamation and Reuse Seminar

September 22, 2022 | Rockford, IL

Aqua-Aerobic Systems, Inc. offers this 1.5 day technical seminar that will focus entirely on **Water Reclamation and Reuse**. Water reclamation and reuse has been a global focus for decades and interest in technologies that produce water for reuse continues to grow. A wide range of Aqua-Aerobic Systems' technologies continue to be used to produce water for reuse standards. This information will be invaluable to wastewater treatment professionals including engineers, consultants, plant managers, operators and contractors.

SEMINAR LEARNING OBJECTIVES:

- Gain an understanding of how biological treatment systems including the AquaSBR® System, AquaNereda® Technology and Aqua-Aerobic® MBR Membrane Bioreactor are designed as part of a reuse treatment process.
- See how tertiary filtration with pile cloth media filtration is used to meet a wide range of reuse requirements including California Title 22, Arizona A+ water, and Texas TCEQ 217 standards.
- Understand the high quality effluent that can be achieved using Aqua MultiBore® polymeric and ceramic membrane technologies and learn what considerations are important in designing these systems.

The seminar will include a guest presentation from **Art Nunez**, Operations Director, Central Division, with EPCOR Utilities.

Since 2019, Mr. Nunez has served as operations director for EPCOR's Central Division in Arizona, overseeing daily operations in the company's fast-growing Arizona service area as well as some of the

company's long-range operational initiatives. Mr. Nunez is a member of the AZ Water Association board of directors, where he contributes over 35 years of experience in operations and management of water and wastewater systems to the group's leadership.

There is **no cost to you** for attending this seminar. Your airfare, hotel accommodations, meals and ground transportation from Chicago's O'Hare airport to Rockford, IL and the return to O'Hare will be furnished by Aqua-Aerobic Systems, Inc. and your local Aqua-Aerobic representative. Upon registering for the seminar, you will receive more detailed travel information and a seminar synopsis.
